Starting May 9, 2012

Log in change
Starting May 9, 2012 when logging on to e-Campus, Desire2Learn (D2L), and the Distance Learning system you will use the same Username and Password you use to log in to an NWFSC computer. The screen on the computer looks like this screen on the right. This login is your **NWFSC Network Username and Password**.

**The NWFSC Network Username**
- Your Username is the same as your RaiderNet and NWFSC student email name without the “@nwfsc.edu”.
- An example of the student Username for John Doe would be “doej2”.
- Your Username will have no spaces, commas, hyphens, or apostrophes.

**The NWFSC Network Password**
- Your Password is different from your RaiderNet and NWFSC student email password.
- Your Password is initially set as: first letter of your first name (upper case), the pound sign “#”, the six digit date of birth in MMDDYY format.
- An example of the student Password for John Doe with the birthday of January 1, 1990 would be “J#010190”.
- You can change this Password by logging in to an NWFSC computer. If you change it, please write it down for future reference.
- We cannot look up changed Passwords, but can change the back to the initial (default) Password.
- Password problems: please call 850-729-5396.
